SUMMARY

Computer Science undergraduate at the Informatics Institute of Technology (IIT), affiliated with the University of Westminster. Specialize in modern frontend development with React.js, TypeScript, and Tailwind CSS, with a strong foundation in backend development, databases, and machine learning. Built and maintain a production full-stack platform (PastPaperZone) serving real users, covering authentication, cloud storage, admin tooling, and third-party API integrations. Seeking a software engineering internship to apply these skills and contribute to real-world, user-centric applications.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, TypeScript, Kotlin, SQL

Frontend & Mobile: React.js, Next.js, Tailwind CSS, HTML, CSS, Flutter

Backend & Databases: Node.js, REST APIs, AWS, MySQL, MongoDB, Firebase, Supabase (Postgres, Auth, Storage, RLS)

Cloud & DevOps: Cloudflare Workers, Cloudflare R2, OAuth, Git, GitHub

Tools & IDEs: VS Code, IntelliJ IDEA, Android Studio, Apache NetBeans, Figma, Google Colab

Other: Telegram Bot API, i18n/localization (next-intl), PDF processing (pdf-lib)

PROJECTS

PastPaperZone | Personal Full-Stack Project

pastpaperzone.lk

Next.js, TypeScript, Tailwind CSS, Supabase, Cloudflare Workers, Telegram Bot API

- Designed and built a production, multi-language (Sinhala/English/Tamil) Next.js platform distributing O/L and A/L past exam papers by subject, year, and medium, deployed on Cloudflare Workers under a custom domain.
- Implemented full authentication (email/password and Google OAuth) and user profiles using Supabase Auth, Postgres, and Storage, including row-level security policies and avatar uploads.
- Built an admin dashboard for paper uploads, content management, and real-time analytics, backed by a protected file-serving API integrated with Cloudflare R2 object storage.
- Developed a Telegram bot with an interactive multi-step paper-request flow, automated channel announcements on new uploads, and multilingual autoreplies in a linked discussion group.
- Engineered a PDF watermarking pipeline (pdf-lib) that embeds clickable branded headers, footers, and logo watermarks across all distributed documents.
- Added engagement features including bookmarked/saved papers, a weekly trending-papers feed, and delivery analytics, driven by Supabase-backed activity tracking.

VanGo | Software Development Group Project

IIT, 2025

- Co-developed a cross-platform school transportation app connecting parents and van drivers on a single platform.
- Implemented live van location tracking, arrival alerts, and pickup/drop-off notifications to keep parents informed in real time.
- Built driver-facing features for attendance management, optimized route following, and in-app communication with parents.

Cross Math Puzzle Game | Mobile Application Development Coursework

- Developed an Android mobile game where players solve dynamic cross-shaped arithmetic puzzles across multiple difficulty levels.
- Implemented a built-in hint system and a competitive leaderboard to sustain player engagement.
- Focused on smooth performance, seamless state management, and an intuitive, modern UI.

Smart Campus API | Client-Server Architectures Module Coursework

- Built a RESTful API for a Smart Campus management system handling room allocations, IoT sensor registration, and historical sensor readings.
- Used thread-safe in memory storage to maintain high performance and data consistency under concurrent requests.

- Implemented HATEOAS navigation for dynamic resource discoverability, custom JAX-RS filters for centralized request logging, and a global error-handling architecture.

EDUCATION

BSc (Hons) in Computer Science <i>Informatics Institute of Technology (IIT) / University of Westminster, Colombo, Sri Lanka</i>	2024 - Present
Foundation Certificate in Higher Education (Computing) <i>Informatics Institute of Technology (IIT), Colombo, Sri Lanka</i>	2023 - 2024
G.C.E. Advanced Level Examination <i>Bandaranayaka National School, Hettimulla</i>	2025
G.C.E. Ordinary Level Examination <i>Kg/Hettimulla Nawa Maha Vidyalyaya, Hettimulla</i>	2022 (2023)
7 A's including Sinhala, Mathematics, Buddhism, History, Music (Oriental), Geography, and Health & Physical Education; 1 B in Science; 1 C in English.	

ACTIVITIES & COMPETENCIES

- Active member of the school prefects board (2019 - 2023)
 - Member of the school Science Society
- Project Management, Teamwork, Leadership, Time Management, Public Relations, Effective Communication, Problem-Solving & Critical Thinking

LANGUAGES

English, Sinhala

REFEREES

Mr. Niyomal Boteju <i>Assistant Lecturer, Faculty of Computing, IIT Sri Lanka niyomal.b@iit.ac.lk 0777377313</i>
Mr. Jiehfeng Hsu <i>Assistant Lecturer, Faculty of Computing, IIT Sri Lanka jiehfeng.h@iit.ac.lk 0703452684</i>
